

An eight year old boy while handling a shot gun at the home of W. H. Ballards, on Upper Ivy last Sunday accidentally discharged the gun and the entire load took effect in the neck and side of the head of the 16 year old son of Jane Crowder, killing him instantly.

It is the old story of allowing a boy to handle an unloaded gun which causes so many sad accidents.

The law relative to the handling of firearms by children should be enforced. 4/11/15 NR
